Your Crowning Glory: Set an Energy Level

Every day we each have the opportunity to begin anew. One of the ways that we can start fresh is by consciously setting an energy level at our crown chakra.

Are you aware of how your expectations and day-to-day experiences are being affected by the present setting at your crown chakra? Learn how to effectively establish and own an energetic intention at your seventh chakra; and use your "crowning glory" to help you create more of the life that you truly want, easily and with certainty.

How Your Beliefs Shape Your Reality

How we view ourselves and the world around us is colored by the lens through which we are creating our reality. Our way of Seeing the world can be deeply affected by our families and culture.

Each week of this class we will focus on one particular chakra, and clear away outdated information. The information might be from other people and no longer appropriate for you, or it might be your own past time information. This way you can create your life from your own present time vision.

Where on Earth have you been? - And Where Are You Now?!

Psychic Horizons begins teaching online from off-site, in this case Ohio. Focus on having your own space, wherever you currently reside, while being in affinity with your surroundings. This includes the socio-economic, ethnic, religious and political pictures of your area.

Get all energy in one place and time: your space, now. Create strong present time grounding, boundaries and affinity with your community.

Female Energy and Identity - Women's Class

Why did you choose to take a female body? What have you been learning as a result? How do you feel about being a woman?

You might be stuck in certain pictures about your female-ness. You might have victim pictures, difficulty owning your space in some situations, maybe around certain men or types of men, power issues, etc. We'll look at sexism, the female body, female & male energy channels. Lots to do in this class!

The goal is to clean out pictures that are still in your space that disempower your female identity, in order to empower who you are as a female and as a whole person. We haven't done a class like this in a long time, so I hope to see all you female graduates there!
